

TAKING A CONSULT PHOTO/SELFIE

Please email photo to: photo@nesurgery.com

In the SUBJECT line, please include ONLY the first 3 letters of your LAST name and your patient ID #. Your unique patient ID number will be included in the phone consultation packet that we will send to you either by email or regular mail.

Below is an example email sent to us from Mrs. Jane Doe:

The screenshot shows an email composition interface. At the top, there are 'Cancel' and 'Send' buttons. The recipient is 'photo@nesurgery.com'. The subject line is 'doe#12345'. There is a placeholder for a photo with the text 'Insert photo here' and two small icons of a head in profile. The email address 'doe#12345' is also visible in the top right corner.

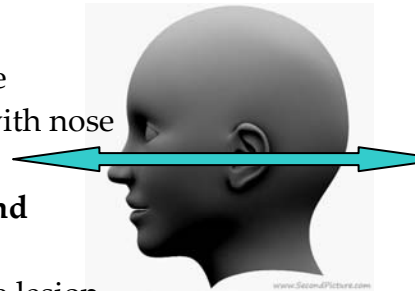

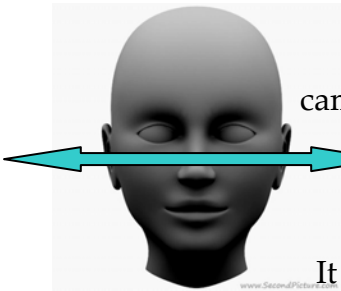

How do I take a Consult Photo/Selfie?

HEAD PHOTOS:

Make sure your head is straight and facing the camera phone directly. Ears should be lined up with nose in an imaginary straight line.

It is important to take both a front view and a side view photo.

It is also very important to have a **close up** of the lesion next to the ruler found on the right side of this page.

OTHER BODY PART PHOTOS:

The size of your lesion is very important to us, as it will help us determine what treatment is best for you.

Please send us a **close up** of your lesion, lined up next to the ruler found on the right side of this page.

Be careful not to cover the lesion with the ruler.

Please make sure to take a **distant shot** of the same lesion, as it will help us identify the anatomical location on the day of surgery.

If you can draw around the site it would be helpful.
